

Raj Madni

Web Developer

Vadodara, Gujarat, India • rajmadni133@gmail.com • linkedin.com/in/raj-madni-039111281

Web Developer with expertise in full-stack development, specializing in Python, Django, ASP.NET, and modern web technologies. Proven track record in building scalable applications and leading technical projects. Currently pursuing MCA with hands-on experience in developing job portals, e-commerce platforms, and enterprise solutions. Passionate about leveraging technology to create innovative solutions that deliver measurable impact.

RELEVANT WORK EXPERIENCE

Weltec

2025– 2026

Web Developer Intern (Python) (December 2025 – April 30, 2026)

- Developed and maintained web applications using Python and Django framework with MySQL databases, ensuring high performance and scalability.
- Collaborated with cross-functional teams to implement RESTful APIs and optimize backend performance.
- Designed and implemented database schemas for efficient data management and retrieval.

Tech Solutions Pvt. Ltd., Vadodara, Gujarat

2023

Software Development Intern (June 2023 – August 2023)

- Built responsive web applications using React.js and Node.js, improving user engagement by 30%.
- Optimized database queries and API endpoints, resulting in 40% faster page load times.
- Participated in Agile development processes including daily stand-ups and sprint planning sessions.

PROJECTS

HireStack - Online Job Portal System | Python, Django, MySQL, Bootstrap

Dec 2025 – Apr 2026

- Developed comprehensive job portal platform connecting employers and job seekers with advanced search and filtering capabilities.
- Implemented user authentication, resume upload, job posting, and application tracking features using Django framework.
- Built admin panel for managing users, job listings, and generating analytics reports on hiring trends.

Online Mobile Shop | ASP.NET, C#, MySQL

March 2023

- Created e-commerce platform for mobile phone sales with product catalog, shopping cart, and secure payment integration.
- Developed admin dashboard for inventory management, sales tracking, and customer relationship management.

Online Voting System | PHP, MySQL, JavaScript, Bootstrap

December 2022

- Built secure web-based voting system with voter authentication, real-time counting, and role-based access control.
- Designed database schema ensuring vote integrity and created result visualization using Chart.js.
